852 provider and program records

Addiction treatment, mental health, monitoring, investigations, attorneys and bail bond companies.

Alphabetized within service category. Provider names link to the public source in this PDF; the accompanying workbook retains full URLs, review notes and missing-field flags.

Scope and verification

The healthcare sections cover four selected DHS program categories. Private-investigator entries come from the Board holder directory. Bail-company contacts are consolidated from the statewide court agent report. Attorneys and monitoring offices are curated additions. This is not a census of all Minnesota attorneys or individual mental-health practitioners.

A source check is not a completed call to the provider. Phone numbers may route to business contacts or central intake. Confirm availability, eligibility, current licensing, mailing addresses and service areas before printing. Blank fields were not invented; two treatment entries have no sourced phone. Conditional healthcare records and 250 older attorney leads are held separately in the workbook.

Publication and advertising note

County distribution is planned, not secured. Confirm facility permission and actual receiving sites. Minnesota Statutes section 60M.05 limits bail-producer solicitation and permitted jail print advertising. The white-pages format does not itself authorize bail display ads in jails or courthouses. Keep proposed public/digital bail placements separate pending legal review.
